Boyd Brent : Jack Tracy The Priory of Chaos: 2017 Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Jack Tracy The Priory of Chaos: 2017 Edition:

0 of 0 people found the following review helpful. AMAZINGBy SamalamaThis book is unique,complex,and completely awesome. I would recommend it to both beginners in reading and the people who read 6000000000 books a day.6 of 8 people found the following review helpful. Nice reading but not amazingBy SunstarfireWell, first of all this book kinda sets the stage by calling itself the natural successor of one of the best series of books ever written. Apart from the fact that being so presumptuous is the first fail, the book does not even come close. Don't get me wrong, it's nice reading, the story is captivating, but the book lacks style, and there are typos in the Kindle edition, something that makes the reader seriously ask himself whether someone even read that book before it was published.-xxx moved passed the table. Jesus, folks, that is one of the simplest word ever. Even worse, later in the book, it's the other way round: He past the guy standing there... Sorry, mistakes like that are ridiculous and kill the pleasure of reading a good book.- The story is weird in itself. The experience starts out with a really weird horror scenario. Gangs roaming the streets, beating up people, vandalizing the neighborhood... Then the author tries to be funny by describing The First Evil in some funny ways (the carriage, the way he eats - don't want to give away too much), while trying to create an atmosphere of suspense. Here, again, he fails miserably. The funny sides of The First Evil seem misplaced, and the story loses...All in all as I said, it's nice reading, but it's nowhere close to the genius of the Harry Potter books, and if it had not been so cheap (4 bucks) I would have been seriously disappointed.1 of 1 people found the following review helpful. Seriously?! who wouldn't think this is a great book?! anybody with a review less than four stars for this book is crazy!!!By Mike from HighlandI really really loved this book!!! and nobody dare say otherwise... EVER!! it was really creative and inventive. the gore wasn't too scary but it added to the story. one of the best books ive ever read... and ive read innumerable books. that includes harry potter and percy jackson serieses. please, i would recomend this to anybody. maybe thats just because i love nearly every book ive read, but i know its not. ive come across lots of books i dont like and this book was exceptional. i especially liked imagining the monsters, especially especially the sleepers because i love to be scared myself and imagine things even though i hate scary movies. but if you dont like to be scared, theyre not too scary and its an awesome book. in my mind, this book should be up with the big leaguers--famous. please read this book! and if youre too lame to spend four dollars on it you can get it as a free bonus if you buy some/one of his other books!! PLEASE READ IT! YOU WONT REGRET IT!!! :-) ; -) ;) Its too awesome not too read. and let evrrone you kniw about it if you like it... maybe we can make this thing famous one day!

For as long as he can remember, 12-year-old Jack Tracy has daydreamed about going on adventures just like the heroes of his books. And wondered if he truly possessed the courage of his daydreams. So, when Jack discovers that he's been chosen to travel to another realm to destroy the vilest school in all creation, he reasons he's about to find out one way or another. An incredible adventure is about to begin! From the author of The Lost Diary of Snow White Trilogy.
